

I am writing to ask you NOT to expand LPFM stations to allow them to take priority over current FM translator services. There is one FM translator service which I support and listen to and that is K-LOVE. K-LOVE serves me as a local resident by providing a community events calendar for the area. This enables me to attend local gatherings that I may not know about otherwise. Taking away the supporting and encouraging message and the events calendar from my community would result in a big loss. Loss of support for other churches and civic groups in the area who bring in guest speakers and have special services. The supporting and encouraging message that K-LOVE provides is in the public interest because it brings the love, hope and grace found in Jesus to light for individuals who may be suffering and in need of a way out. It ministers to my spirit on a daily basis by uplifting and helping me maintain the peace I need to get through my day. Thank you for allowing me to comment on this serious danger to me, my family and my community. Michelle Taylor
